ARCHIDEX 2024 RETURNS TO EXPLORE THE FUTURE OF ARCHITECTURE

The largest architecture exhibition in Malaysia, is poised to transform the industry with all the latest innovations and cutting-edge technology, as it returns for the 23rd consecutive year from 3-6 July at Kuala Lumpur Convention Centre. ARCHIDEX is held concurrently with the DATUM conferences, both much-anticipated events of the Kuala Lumpur Architecture Festival [KLAF 2024].

This year, ARCHIDEX offers an immersive experience that brings together the three core pillars of the exhibition – Future Architecture, Sustainability and Wellbeing, to champion people-centric built environment. It sets the stage for architects, designers, and industry

leaders to keep pace with emerging trends, breakthrough solutions and technological advancements that have come into the industry, inspiring transformative solutions that will shape the future of architecture.

ARCHIDEX also features a variety of panels, workshops, talks, demonstrations and carefully curated content by notable speakers, serving as a platform to enhance knowledge-sharing, networking and stimulate trade deals among market players.

Top reasons to be at ARCHIDEX 2024

1 The place for technology to build future architecture

Close to 700 exhibitors from 20 countries and regions

2 Connect with the right people

Meet the decision-makers, trade buyers and industry experts from over 100 countries

3 Be in-trend with the industry

Learn the trends that drives up value in the built environment

4 Over 4 days of knowledge-sharing

Talks and forums by market experts

5 Tools and techniques for sustainable and inclusive built environment

Design and build buildings for tomorrow's community needs

ARCHIDEX will welcome Malaysian Prime Minister, Ministry of Housing and Local Government Malaysia to host ACMROCH 2024

- ARCHIDEX 2024 is set to be officially launched by the Prime Minister of Malaysia, YAB Dato' Seri Anwar Ibrahim.
- 2nd ASEAN-China Ministerial Roundtable Meeting on Construction and Housing [ACMROCH] 2024 will be held concurrently with ARCHIDEX.

In his officiating speech at ARCHIDEX 2024's preview, Housing and Local Government Minister YB Nga Kor Ming announced these two historic firsts for ARCHIDEX.

Also in attendance during the launch were Ar. Abu Zarim Abu Bakar, Immediate Past President of Pertubuhan Akitek Malaysia (PAM); Yang Berbahagia Dato' Vincent Lim, President of C.I.S; and Ar. Dr Lim Teng Ngiom, KLAFF 2024 Director.

A testament to the event's growing importance, the government has chosen to hold this prestigious event at ARCHIDEX, reinforcing its role as a national and international industrial platform.

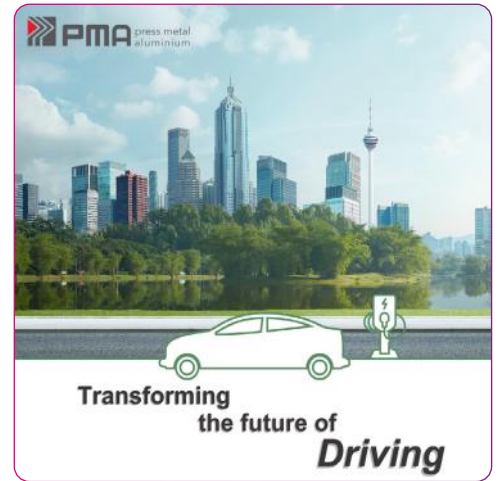

ARCHIDEX will feature:

- CLOSE TO **700** EXHIBITORS FROM 20 COUNTRIES & REGIONS
- **6** INTERNATIONAL PAVILIONS
- **40,000** VISITORS EXPECTED FROM 100+ COUNTRIES
- **3 DAYS** DATUM CONFERENCE
- ASIAN YOUNG ARCHITECTS PROGRAMME
- ARCHITALENT (ARCHITECTURE STUDENT DESIGN COMPETITION)
- ARCHIDEX BIZ TALKS & FOCUS FORUMS
- ARCHIDEX STAR AWARDS & GALLERY
- ARCHIDEX NITE
- INDUSTRY MEETINGS & DISCUSSIONS
- BUYER PROGRAMME

PMB Aluminium reimagines aluminium for a sustainable future

Discover the transformative power of aluminium at ARCHIDEX. Lightweight, durable and highly recyclable, PMB Aluminium is here to introduce you to the versatility and sustainability of aluminium.

Discover how aluminium’s boundless recyclability fuels a commitment to responsible growth. Find out how you can be a part of the low-carbon movement by leveraging the recyclability of aluminium throughout its value chain from remelting and casting to advanced extrusion techniques and value-added services.

As a part of the Press Metal Aluminium Holding Bhd group, renowned for groundbreaking low-carbon technology, PMB Aluminium is here at ARCHIDEX to showcase its journey towards shaping a greener tomorrow by exploring the endless possibilities of aluminium. Don’t miss the opportunity to be part of the sustainable future.

'The Best Made in Taiwan': Taiwan Excellence Pavilion features hottest green innovations from award-winning brands.

AMA TECH

Booth No.: 2L180 Hall: 2

Cooling just got cooler with AMA Tech's energy efficient fans

AMA Tech levels up cooling solutions with ultra-large energy-efficient fans powered by green energy. For extreme energy efficiency, check out their Mobile Tank Fans that blows up to a distance of 36m. Best for both, indoors and outdoors.

SHENG YUAN ELECTRIC CO., LTD

Booth No.: 2L180 Hall: 2

Game-changing air-purifiers from ALASKA - you won't breathe this anywhere else

Upgrade your air game with Sheng Yuan's revolutionary air purifiers! These experts are showcasing their silent, energy-saving tech. Experience the VIVI Air Circulator with built-in antibacterial power and the whisper-quiet 158D DC Ventilator - everyone will be talking about them!

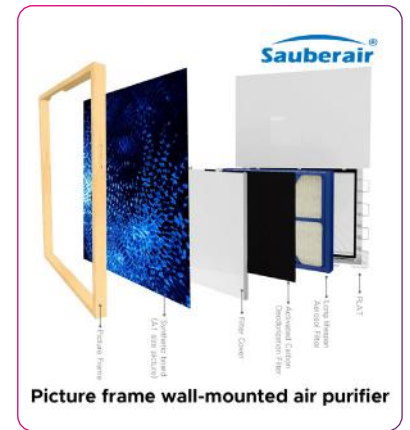

SAUBERAIR TECHNOLOGY LTD

Booth No.: 2L180 Hall: 2

Clean air never looked prettier with FLAT

It's an art piece that promises clean, fresh air for a healthier living! Wall-mounted FLAT is a revolutionary IoT air purifier disguised as an art piece featuring an ultra-slim design, silent operation, AND built-in Bluetooth speakers! Plus, the new UVC version KILLS 99.9997% of Coronavirus!

CSC STEEL SDN. BHD.

Booth No. 5L527

Hall: 5

CSC Steel: Pioneering Steel Innovation for a Sustainable Future

CSC Steel, the go-to source of high-quality steel coil products is bringing their bestsellers, realcolor® and realzinc™ to ARCHIDEX. Known for superb quality and unparalleled practicality, experience the versatility of these products and learn about their drive to cost-efficiency and their journey towards a carbon-neutral future, with sustainability and social responsibility on their agenda.

From recycled materials to tranquil spaces: Ecosil shapes the future of ceilings

Get high-quality sound absorbing ceilings made from recycled materials that come in flexible customisable modular designs to give your next project an edge. Ecosil's "Acoustic Ceiling Panel" and "Acoustic Wall Panel" integrate sustainability, functionality, and user comfort to deliver higher occupant productivity and safety.

Ecosil also offers one-stop solution for complete ceiling renovation, specialised acoustic door installations, and advanced sound management services.

Laminates just got greener with ICA's HPL

High Pressure Laminate (HPL) by ICA Innovation is a game-changer in eco-friendly architecture, offering sustainable production and recyclability. Its durability slashes material waste, vital for combating climate change. Adaptable to various styles, architects can craft resilient spaces with natural aesthetics, reducing environmental impact and creating oneness with nature.

Lightweight, recyclable and long-lasting, HPL supports sustainable building practices.

Roofs that are built to last

Experience the future of metal roofing with Le Nam’s durable PU metal and PU Foam solution made from premium steel. The Ledex roofing system guarantees seamless integration that prevents rust and leaks, meeting stringent GBI standards. Combined with the Colorbond® SRI coating, you get an aesthetically pleasing roof that is sustainable and built to last.

Safety & Quality: MOLICC’s Fire Door Series the new industry benchmark

Experience MOLICC’s groundbreaking Fire Door series, exceeding safety standards with reliable fire resistance for up to 2 hours and acoustic excellence of up to STC 45. BOMBA and SIRIM compliant, explore their diverse range of doors including the Largest Fire Resistant Door at 3x3 meters and ask about their options for eco-friendly materials.

Roofing system redefined: Durability meets innovation

PW Roofing system is setting the gold standards in the industry with its premium blend of durability and elegance. Leveraging the latest technology in insulation metal roofing and innovative designs, with a promise of strength and versatility using purlins, here's a roofing system of the future!

Go green with Sunway Pavings's low maintenance, high impact Pavestone

Malaysia's first Algae Resistance Interlocking Concrete Pavers with SIRIM and GREEN label certifications. Aesthetically captivating with rustic charm and lava rock chipping finishes, each paver represents reduced carbon emissions from its sustainable materials and manufacturing process.
