Foreword

YB TUAN NGA KOR MING

MINISTER OF LOCAL GOVERMENT DEVELOPMENT, MALAYSIA

I am honoured to extend my heartiest congratulations to pen a few words for Celebrating ARCHIDEX 2023. As the guest of honour for the preview held in March this year, I was already impressed by the achievements of a proudly made in Malaysia exhibition of this scale.

The Ministry of Local Government Development is pleased to support ARCHIDEX as an initiative that benefits the economy and the industry. Malaysia is undergoing digital transformation in various areas, and we are answering the call for sufficient housing that will address sustainability and wellbeing.

ARCHIDEX has successfully united the industry for the architecture, interior design, and building professionals. More than that, the exhibition has evolved to become a platform of choice for stakeholders not just in Malaysia but across Asia. It is not an exaggeration to say ARCHIDEX has indirectly promotes Malaysia as a MICE centre.

I am proud to see how much value ARCHIDEX has contributed towards the economy and the industry. Together, C.I.S and PAM have fostered industry growth, encouraged innovation, and inspired countless of industry members in various ways, big and small.

The concurrently held DATUM:KL Conference is one of the biggest conferences in the region making ARCHIDEX and DATUM a collaborative triumph that makes up the Kuala Lumpur Architecture Festival (KLAF) together with the PAM 100 Years Celebration this year. It marks Kuala Lumpur as the preferred MICE centre with global standards.

Knowledge is a key component of ARCHIDEX, as such, I encourage the stakeholders to continue learning and stay on top of the latest news and industry developments from the exhibition.

ARCHIDEX is a nucleus for ideas and creative endeavours and inspirations, as such, I look forward to the emerging technologies, green building initiatives, and smart city concepts that will be featured.

Thank you and I wish every exhibitor, visitor, and delegate a fruitful and successful ARCHIDEX 2023.

- Foreword

Ar. ABU ZARIM BIN ABU BAKAR

PRESIDENT. PAM

What an amazing time for all of us, as we celebrate 100 years of PAM and another ARCHIDEX 2023!

I am excited to welcome every one of you to a momentous celebration for our beloved architecture, interior design, and building industry. This year is very special for us as we rejoice in gathering together once again and to witness the PAM 100 milestone. The DATUM conferences themed of 'WE AS 1' says it all, as we continue to grow, evolve, and move confidently into the future together as a community.

Sustainability, future architecture, and wellbeing of the community we serve are themes that have always been a cornerstone of architectural practice, and this is emphasised at ARCHIDEX this year. As such, we can expect to see new technologies, innovative designs, and novel ways of building during the four days of ARCHIDEX and DATUM:KL.

ARCHIDEX is an immensely enjoyable gathering as there is so much to talk about, learn, discuss, and catch up with industry members. There is never enough time! ARCHIDEX today draws many key industry exhibitors, speakers and industry leaders from around the world and the atmosphere is energetic and keeps you on your toes.

It is a wonderful time that fosters intellectual discourse, collaboration beyond borders, and the exchange of knowledge and experience that is invaluable. There are abundant opportunities for every participant for personal and professional growth, with various forums, talks, discussions, and networking sessions organised.

And this year, I am honoured that we are witnessing 100 years of progressive architecture for Malaysia. It is significant as PAM has always been a non-profit organisation created to support and advance the architectural profession in this country. Our partner, C.I.S, has tirelessly worked with us to create a platform that unites and elevates the entire industry with a longstanding commitment to serve our community.

To mark PAM's 100 Years in ARCHIDEX, the PAM Pavilion in Hall 8 will be specially designed in a linear structure shape, symbolising the organisation's journey over its 100-year history. Tempered glasses have been chosen for its transparency and to reflect PAM's commitment. The Pavilion will feature a tunnel with an immersive internal space, social and forum area that includes the PAM Counter.

With so many things to see and learn from, I look forward to welcome and meet PAM members, associates, students and industry affiliated professionals, speakers and exhibitors to ARCHIDEX 2023!

Foreword

Ar. NORZAINI MUFTI KLAF 2023 DIRECTOR

A very warm welcome to all delegates and visitors of ARCHIDEX 2023. Kuala Lumpur Architecture Festival (KLAF) 2023, aptly themed NEXT100, in conjunction with PAM's 100th anniversary, is a once in a century event and safe to say it will be once in a lifetime occurrence for all of us. ARCHIDEX, DATUM KL and all its supporting programs are important programs of KLAF2023 and it is an honour for me to serve as the KLAF2023 Director.

DATUM conferences began in 2003 and they are the catalysts which developed into Kuala Lumpur Architecture Festival (KLAF) which started in 2011. KLAF is designed as a platform to celebrate the many facets of architecture. The objective is to develop and create a focused event to gather practitioners, industry players, influencers, speculations, and ideas, and present them to the public at large in Kuala Lumpur and internationally.

Within its brief history, DATUM has brought in an amazing array of established and up and coming architects from abroad and locally who each shared their life's work and solutions with all of us. It is from the increasingly large audiences and interest shown from within and beyond architecture fraternity, we are continually inspired and motivated to keep on organising KLAF on an annual basis. Over the years, the event has evolved into something bigger than anyone dreamt of.

KLAF2023 provides a stage for various stakeholders to re-engage and re-connect for mutual benefits. In these uncertain times and unpredictable directions for architecture, it is the moment to consider new priorities and positions, and to explore, experiment and engage.

In addressing concerns and needs of various segments of the architectural fraternity, KLAF2023 is divided into five key thrusts, namely: Engage, Educate, Evolve, Extend, and Evoke. Each thrust offers a variety of programs and activities providing learning and knowledge opportunities to participating members. These include ideation and conceptualisation process, new technologies or materials, and training and education.

The main feature programme "DATUM: We as 1" will see over 30 local and international speakers sharing their design aspirations from their projects and learnings through our signature conferences - DATUM:KL, DATUM:PRO, DATUM:EDU, DATUM:M and DATUM+PLUS.

As we gather at ARCHIDEX and DATUM, let us be reminded and appreciate the immense and far reaching power of architecture and architects to shape the community and environment around us. Through our collective passion, dedication, and vision, we transform lives, uplift communities, and leave a lasting legacy for generations to come. Let us together unleash the brilliance within our architectural fraternity and create a future where design knows no bounds.

Enjoy the fellowship and camaraderie. Lets work together for better times and I wish everyone the very best and success at ARCHIDEX and DATUM.

Foreword

DATO' VINCENT LIM

PRESIDENT, C.I.S

I am honoured to extend a warm welcome to every exhibitor, sponsor, partner, visitor and delegate as we gather for a great time at our annual industry event to connect, collaborate, and celebrate.

I would like to take this opportunity to congratulate PAM for celebrating its 100 years, our invaluable Joint Organiser of ARCHIDEX and partner in building this platform to elevate the industry. Both C.I.S and PAM have a great synergy in organising ARCHIDEX every year and I am grateful for the support and close relationship between both organisations.

This year's ARCHIDEX would be the largest ever. We will be expecting 36,000 visitors from close to 90 countries and will host over 600 local and international exhibitors from 13 countries and regions including Malaysia taking up 1,400 exhibition stands across all 10 exhibition halls of the Kuala Lumpur Convention Centre. The themes of sustainability, future architecture and wellbeing will be seen across Hall 8 and in displays by leading global brands.

ARCHIDEX is a platform for fostering innovation, creativity, and collaboration among professionals from diverse backgrounds. As such, there will be vibrant examples of new technology, materials, and solutions throughout the halls.

Important conversations will be held during the four-day exhibition that fosters the exchange of experience and knowledge in addressing industry issues through the concurrent DATUM Conferences, Focus Forum and the Biz Talks.

As ARCHIDEX has expanded and evolved today into a dynamic platform uniting the industry, many international collaborations and partnerships have been form. I wish to invite participants to actively engage in every session possible and take full advantage of connecting with your peers and other community members during the four days.

I wish every one of you a most successful, fruitful time at ARCHIDEX 2023.

- Feca'sMarble Veneer Shelf Board has vacuum 9. suction that reduces drilling
- Jye Li An's Touch-Free Easy Installation Sensor Flush 5. Kit to easily upgrade to a sensor toilet
- Medusa's i-WaterProofpaint uses a non-toxic, 10. odourless, safe water-based formula

WATER WARE

WORLD LEADER IN CORDLESS INNOVATION

Since the company began in 1924, Milwaukee Tool has led the industry in both durability and performance. With an unwavering commitment to the trade, Milwaukee continues to lead with a focus on providing innovative, trade-specific solutions.

Whether it is through their leadership in LITHIUM-ION technology, as seen in the $M12^m\&M18^m$ Systems, time-saving accessories or innovative hand tool products, Milwaukee is dedicated to delivering a steady stream of advanced solutions for the trade that offers increased productivity and unmatched durability.

To do this, Milwaukee takes the time to work side by side with real craftsman to understand the demands of a constantly changing workplace and how they can best deliver solutions that helps the user work faster and smarter.

Milwaukee knows that professional users sweat the small stuff, and so do they. They pay attention to the small details that makes a big difference. This user focus not only leads to solutions for real jobsite challenges, but fuels the disruptive innovation seen across all product lines.

Company Powin Steel Industries Sdn Bhd | Stand HALL 4 • 4P389

GROW YOUR BUSINESS WITH POWIN STEEL

Powin Steel is committed to providing customers with exceptional products and services that help them grow their businesses. In our company, we have developed a roofing solution that not only provides exceptional quality and durability but also acts as a catalyst for business expansion and success. Our products are designed with reliability and efficiency in mind, and they offer extensive customisation options to meet the specific needs of our customers. Moreover, we understand that every business is unique, and their roofing requirements may vary. That's why our product is highly customisable, catering to the diverse needs of different industries and building types. Whether it's a commercial office space, a retail establishment, or an industrial facility, our roofing solution can be tailored to meet the specific demands of the business. We also pride ourselves on our exceptional customer support, and we are always available to help our customers resolve any issues they may have. We believe that by working together, we can help our customers achieve their business goals.

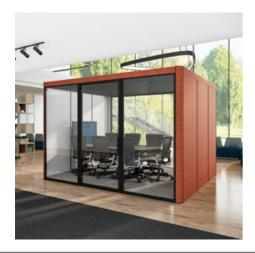

UNLEASH PRODUCTIVITY AND CREATIVITY IN YOUR WORKSPACE WITH BRISTOL'S ACOUSTIC PODS!

Are you tired with the constant distractions hindering your productivity and stifling your creativity at work? Look no further than Bristol's Acoustic Pods. These innovative spaces are the ultimate solution for a focused and efficient work environment!

Regardless of a private meeting room or a secluded spot for important calls, the Bristol Conference and Call Pods are specifically designed to fit into small spaces without disrupting the entire office space. The Conference Pods comfortably accommodates up to six people, making them ideal for small teams to collaborate and brainstorm while the Call Pods offer a sanctuary for individuals to work without distractions.

Designed with cutting-edge soundproof material, including acoustic fabrics and toughened glass, the Call Pods create a serene atmosphere by minimising ambient noise. Additionally, the automated light and ventilation sensors ensures that the pod's temperature and lighting are optimised for maximum comfort and focus.

To enhance convenience, the pods also feature an integrated wire management to allow employees to stay connected and charge their devices seamlessly. Don't hinder your team's productivity and happiness any longer. Discover the full range of Bristol's acoustic solutions and revolutionise your office space.

Company EDL Laminates Sdn Bhd | Stand HALL 10 • 10H228

EDL WORLD OF SURFACING MATERIALS

We want you to love where you live, no matter who or where you are. American Standard. LIFE. LOVE. HOME.

Company LB Aluminium Berhad | Stand HALL 4 • 4F444

AT THE FOREFRONT OF ALUMINIUM'S EVOLUTION

LB Aluminium Berhad has grown phenomenally since its incorporation in 1985, to become one of Southeast Asia's largest aluminium extrusion manufacturers with a full range of facilities which inclusive die shop, extrusion prosses, powder coating lines, anodising plants, engineering and test rigs. Its commitment to quality and delivery has earned it the reputation of being Malaysia's largest supplier of aluminium extrusion.

LB Aluminium Berhad remains committed to being customer-centric with consistent quality and delivery. Its product range, including the 'Albesash' Window Series, 'Albedoor' Door Series, and 'Albexwall' Curtainwall Series, caters to the increasing demand for heavy-duty windows and doors with versatile designs. The company offers a variety of options for accessories, hardware and fittings as well as different aluminium finishes accommodating different technical and aesthetics requirements.

Moreover, LB Aluminium Berhad has received various quality certifications, including the MS ISO 9001, UKAS accreditation, MS 2289 product certification, and PPS certification from CIDB. These certifications attest to the company's commitment to quality in all aspects of its operations.

With strong focus on delivering top-notch products, LB Aluminium Berhad continues to solidify its position as a reliable partner in the building and construction industry. Apart from that, LB Aluminium Berhad is also committed to expanding our environment social and governance (ESG) efforts, to lay foundation for sustainable growth in the decade ahead.

CLADDING NATIONS WITH BEAUTIFUL STEEL

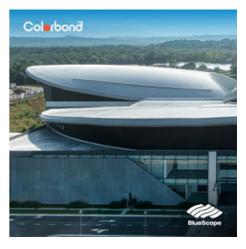

COLORBOND® steel is the premier choice for iconic designs in commercial, industrial, public and infrastructure projects. It is a true embodiment of captivating beauty and unwavering strength, breathing life into iconic landmarks globally.

Featuring a proprietary metallic coating of Aluminium/Zinc alloy, COLORBOND® steel offers exceptional corrosion protection and withstands challenging weather conditions. Its optimal paint formulation ensures colour stability, resistance to tropical staining, and long-lasting vibrant colours. Additionally, the incorporation of BlueScope's THERMATECH® solar reflectance technology provides better thermal comfort by reflecting the sun's heat and reducing heat transmission indoors.

Backed by BlueScope's warranty and a proven track record of durability, COLORBOND® steel unlocks a world of architectural possibilities, creating timeless allure and enduring legacies.

Company Mapei Malaysia Sdn Bhd | Stand HALL 6 • 6A007

UNLEASH INNOVATION AND SUSTAINABILITY WITH MAPEI!

A pioneer in the field of building and construction, MAPEI is committed to continuous research and innovation. Their relentless pursuit of effective and eco-sustainable solutions has revolutionised the industry by providing innovative solutions that prioritises effectiveness and sustainability.

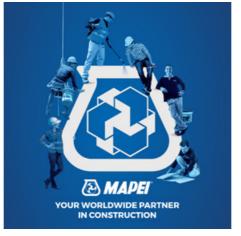

Introducing KERAFLEX MAXI S1 ZERO, a special high-performance, deformable, non-slip adhesive with an extended open time. With low emission of volatile organic compounds and offset Greenhouse Gas emissions through the acquisition of certified environmental credits, it's the ideal choice for bonding ceramic tiles and large stone slabs.

Experience the ultimate self-adhesive technology with SPIDER P SA. This top-quality bitumen membrane features SEALLAP® for superior bonding and FASTLap® for faster, easier applications. With a polyester non-woven carrier, it offers exceptional puncture resistance, dimensional stability, and tensile strength in all directions.

Unlock the beauty and durability of architectural stone paving with MAPESTONE. Our range of products designed to meet stringent requirements of UNI 11714-1:2018 Standard for each class of traffic load (P4 to P9), empowers designers to create natural stone paving that combine aesthetics, performance, and longevity.

Embrace the future of construction and discover how their products can transform architectural projects into masterpieces of innovation and durability.

IKEA PASAY CITY, MANILA

ASTEEL secured its first roll-on-site project beyond the shores of Malaysia through its partner, Sarnatec Sdn Bhd, for the world's largest IKEA store in Pasay City, Metro Manila in 2021.

ASTEEL Group is proud and honoured to be the supplier of the iconic Blue Cladding for the 65,000 square metres IKEA store. The IKEA Blue BV-DEK cladding will cover 12,600m2 of the store and a substantial portion was painted yellow which is also IKEA's corporate colour. The IKEA Blue coated steel is from our premium high durable envioSHIELD series, which provides a plethora of benefits when applied to architectural surfaces.

With envioSHIELD, buildings enjoy longevity, durability, colour, and glass retention, and weatherability in the face of UV radiation, water, salt, and any other elemental factor that could result in coating degradation.

The IKEA Blue BV-DEK is engineered to achieve optimal performance with its durability to withstand wind loads and harsh battering from sea spray and rain. By rolling-on-site, we can provide a continuous sheet without end lapping.

In addition, our BV-DEK roll-former is installed inside a seaworthy 40'GP container to ease the mobilisation of our machine to any project location. BV-DEK is suitable for cladding and ideal for roofing and as underliner for projects.

Company Nexus Office System Sdn Bhd | Stand HALL 7 • 7A007

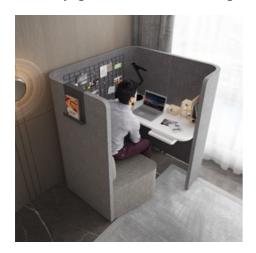

ADAPTING THE NEW NORMAL IN THE WAY WE LIVE, LEARN AND WORK FROM OUR HOMES

ABOUT SIGNATURE, A TOTAL HOME & LIVING SOLUTIONS PROVIDER

In the year 2022, Signature welcomed a revolutionary shift to offer total home & living solutions. Now encompassing a full range of built-in living space furniture, interior fittings, loose furniture and home appliances, their position is strengthened as a one-stop home & living solutions provider for those seeking stylish, high-quality products with comprehensive service and a cohesive aesthetic living spaces.

In the same year, they launched the Signature Flagship Store in the heart of Kota Damansara where the 50,000-square-foot showroom was also recognised as the Largest Interior Design Showroom in Malaysia by the Malaysia Book of Records.

Today, with the largest retail network in Malaysia and a strong presence in the international market, their experience and achievements as the largest kitchen manufacturer in Malaysia are unparalleled. Signature advocates 'Made-In-Malaysia for the World', providing customers luxury at exceptional value and positioning themselves as a thought leader in living space solutions that inspire and delight customers the world over.

Company Quel International Sdn Bhd | Stand HALL 9 • 9A013

SOURCING SMART SOLUTIONS WITH Qi

Qi is able to customise and manufacture bespoke furniture by understanding designers' expectation. Qi imports high quality outdoor furniture for hotels and poolside, being the Exclusive Agent for VONDOM and KENKOON furniture in Malaysia.

Keeping close to the latest market trends, Qi is able to deliver with in-depth knowledge and the latest furniture trends and products to meet clients' expectations.

There is a special synergy outlining the five components undertaken by Qi including furniture, fit-out works, kitchens & wardrobes, outdoor as well as design & build services.
